

AMENDMENT UNDER 37 C.F.R. §1.111
U.S. Application No. 10/015,684

Attorney Docket No. Q67641

AMENDMENTS TO THE SPECIFICATION

Please replace the present title with the following amended title:

--NETWORK GAME SYSTEM AND METHOD FOR PROVIDING CONTINUED
NETWORK GAMES--

Please replace the paragraph beginning on page 3, line 23, and ending on page 4, line 14, with the following amended paragraph:

According to the first and ~~eleventh~~ second aspects of the invention, when the user get involved in a network game executes the basic program contained in the basic content with the user terminal for starting the game, a situation in which the user acquires relevant content of an item, a keyword, etc., occurs to advance the game. At this time, if the user makes a search using a general-purpose search engine, etc., via the network and accesses the content providing server based on the search result and makes a request to download the relevant content containing the relevant program corresponding to the basic program, the relevant content is sent to the user terminal. Thus, the user can voluntarily find out the relevant content not initially held and makes the relevant content collaborate with the basic content and it is make possible to provide a diverse and flexible network game system, etc., on which the taste of each user is reflected without being restricted by the original basic content.
